

## About Us

Neuro Partners are specialists in delivering tailored support packages to individuals, in particular those with neurological conditions. We use a Person Centred Approach and all of our packages, which may include rehabilitation and domiciliary care, are designed to meet the requirements of the individual Service User whether at home, in the community, educational setting or workplace.

Our Person Centred Approach is more than just Service User involvement, it's individual to and owned by the person being supported. By putting the Service User at the centre of the care and support they receive, we encourage development, assist with improving their quality of life wherever possible, aim to fulfil their ambitions and aspirations, and promote autonomy.

## CQC

The Care Quality Commission (CQC) are the regulators of the Health and Social Care Act 2008, Regulations 2010.

Their duty is to ensure that all service providers comply with the Health & Social Care Act and meet the National Minimum Standards for quality and safety of Service Users by visiting the office, Service Users homes and by having discussions with Support Workers.
